Bangalore, India

## About Me

A design student specializing in Human-Centered Design. Navigating the intersection of creativity and functionality. Proficient in UI/UX, 3D modeling, and Motion graphics, I bring a multifaceted skill set to every project.

## Experience

### Sahyagri 07/2022

Logo Design/Content creation freelance

During my freelance collaboration with Sahyagri, I designed their logo and created engaging content for their powdered spices. My work enhanced their brand identity and contributed to their marketing efforts, establishing a memorable market presence.

### Aufait UX (06/2024 - 07/2024)

UX Intern

As a UX intern, I developed a lead management system for small business owners. I conducted user research, created detailed information architectures, and designed intuitive features like custom tagging and integrated messaging. The focus was on creating a user-friendly interface that enhances productivity and efficiency in managing leads.

## Education

2021

St.Mary's College, Sulthan Bathery, Wayanad

High school graduate (Bio-math)

2022-2026

Srishti Manipal Institute Of Art And Design,Bangalore

Bachelor of Design(Human Centered Design)
